

# Engineering Management Accelerator for Corporations

An intensive 5-week **online workshop** that combines LIVE skill building sessions and coaching. Challenge your engineering professionals with project-based learning and a final presentation to your executive team.

## Benefits to Employers:

- Improved communication skills
- Increased productivity and billability
- Advanced public speaking skills and greater confidence levels
- Enhanced professionalism including business and management thinking skills
- Refined goal setting and tracking
- Boosted expertise and improved decision making
- Accountability: Solving real challenges

*"The team that went through the Accelerator program presented their project to our executive team. Maser consulting was extremely happy with the program...and will be enrolling other employees in the program going forward."*

- Allison Colantuoni, PHR, SHRM-CP  
Director of Human Resources/Principal  
Maser Consulting P.A.

*"I have enjoyed the class thus far and have really enjoyed tackling my company's challenge in a small group setting. Your presentations have given me some new insight on how to assert myself as a leader and have also confirmed different practices that I have heard others talk about."*

- Megan Miller Tetro, P.E.  
Wantman Group Inc.

All engineering **professionals**. Firms often enroll a mix of engineers, scientists and even admin and accounting staff.

Cement new skills through a project challenge and **presentation** to our coaches and your leadership.

Lead Trainer: **Anthony Fasano, P.E.**  
A globally recognized author, speaker and engineering career coach.
